B&E METALWORX LAUNCHES NEW WEB SITE

[B&E Metalworx](http://www.bemetalworx.com) is pleased to announce the launch of its new web site at www.bemetalworx.com. The site showcases the company's custom driveway gates, railings and fences for farms, estates and residential properties in Delaware, Maryland and Pennsylvania.

Visitors to the site will see examples of the work that B&E Metalworx has been doing for many years. Installations all around the tri-state area are depicted, showing entrance gates at horse farms and estates, as well as decorative railings at residences. The site makes it easy for people to inquire and request a quote, and gives them ideas as to what is possible for their own property.

B&E Metalworx has been constructing custom iron and steel gates for decades. Each piece is unique and created especially for the customer. The property owner explains what they have in mind, and then the fabricator comes up with an individual piece that works with the site. It could be something to do with horses, wildlife, or a distinctive model produced just for them.

In addition to entranceway gates, the company designs and fabricates fences, decorative railings, and fireplace fixtures. Each one adds style and distinction, enhancing the property and providing a measure of privacy, safety and security. B&E Metalworx also does custom aluminum and stainless fabrication.

For more information, or to request a quote, visit www.bemetalworx.com, send an e-mail to info@bemetalworx.com, or call 302-598-2215.
